Hi,

I am a member of Guy's and St Thomas's trust, and I've seen that you intend to start a petition against the reconfiguration of the bus stop to protect vulnerable road users from mixing with traffic.

I would very interested to see the evidence upon which your opposition to the Westminster Bridge proposals is based. These sort of arrangements are common place outside the UK and I am not aware of any specific evidence to support your position.

I will be very strongly opposing the trust's position on this, and very much hope you will reconsider the evidence before going ahead with the petition.

Best
